=====

ICI-SOG.ORG was requested by the International Rewards Center to assist in the location of a British Citizen that had disappeared in Portugal. The Childs name is Madeline McCann.

While awaiting DNA belonging to the missing child to use for Remote Location ICI-SOG Computer Programs started scanning the Dark Side of the internet to do Photo OP's Comparison of the missing child's photo.

While searching Eastern Europe, PRC, Russia, Africa, South America, Atlantic, Caribbean, and Pacific Websites that operate Human Trafficking Auctions and Child Pornography Websites we encountered a Hacker.

#1 Computer was scanning Child Human Trafficking Auctions

#2 Computer was scanning child pornography photos

#3 Computer was monitoring traffic that was attempting to hack our computers and ISP's going into human trafficking auctions and Child Pornography Websites to determine if anyone was dealing with the missing child from Portugal.

The following entity tried to cover themselves via using stealth products for the internet in an attempt to hide themselves using various hubs and net workings in order to go after a specific target for the purpose of hijacking the computer and / or to stealth use the targeted computer for their own purpose and / or to steal data and / or to destroy the data in an investigative networking cyber investigation system to protect themselves and others that they are affiliated with.

The end result was the destruction of 2-HP computers, data eliminated from all 3 computers. Leaving the third HP computer in a loop around which means each time a new program was downloaded it would stealth terminate the program as you authorized the MSN update to download from Microsoft.

The only purpose for any individual to destroy a system involved in investigations regarding Human Trafficking, Child-Teen Pornography and Missing Children is that they are directly involved and / or indirectly involved in one of the aforementioned activities as a recipient of profits or they are involved with plus condoning the harming of women and children. Computer terminals used for this purpose are usually used not only by the assigned operator, but, also by others whom have access in order to not be apprehended.

Regretfully the hacking while we were in European auction site revealed that we were cyber investigators and may have resulted in the Childs death, which is the normal action taken if they feel they are jeopardized.

#2: Missing Purposely

Now this has its own 4 categories: 2A:-Witness Relocation, 2B:-Domestic Abuse Relocation, 2C:-Runaways (teenagers to spouses), 2D:- Fugitives

#3: Missing VIA Abduction

**63,713 missing women and children located were DECEASED .

Hans Heinmenberg U.S. INS A24-618-680

**AKA
Ronald Robinson**

**DOB: June 7th, 1938
POB: Indian Point Seal Camp
Territory S.E. Alaska**

**Father: Ed Loftus “Tlingit”
Wrangell, Wrangell Island, Alaska**

**Mother: Ruth Robinson “Cherokee-Kiowa Comanche”
Mitkof Village, Mitkof Island, Alaska**

**Hans Heinmenberg did attempt to repatriate through Senator Ted
Stevens and Senator Frank Murkowski’s office to the United States after
having to get home via immigrating from a Soviet Bloc Prison after being
told he was nonexistent.**

**Hans Heinmenberg AKA W4 Robinson, Ronald CIA DO4-SOG known
as Green Dragon Team Leader One of RSO-VLS. The United States
Navy, United States Marine Corps and Central Intelligence Agency took
19 military personnel July 9th, 1958 and trained them with Asian Monks
for 2 ½ years, 2 years with PK Specialists and 6 months of refining
between Quantico and Camp Peary. Chief Warrant Robinson does not
have his discharge from the USMC and his separation from “Emerald
City”.**

**His capabilities are, that he is very proficient in locating inanimate
objects to any carbon cycle life form using his remote skills, teaches Tai'
Chi, Kung Fu and San-feng. He has decided to start teaching Remote**

Sensory Locator.

Hans birth records, academic records, military records and identity has repeatedly been altered due to the fact the Senate Armed Forces Committee and Senate Intelligence Committee authorized the murder of American POW's and Allied POW's via Operation Phoenix Team Advisors leading S.V. PRU's (provincial recon units) into Cambodia / Laos to cover-up the truth about the media blocked wars of Cambodia / Laos and the two invasions into the Peoples Republic of China. If the Remote Teams could do what Hans aka Ronald Robinson is doing today, no corrupt law enforcement officer or corrupt politician could afford to have their kind around.

Hans has been denied Permanent Fund and Longevity since his return home. He continues to live as a Resident Alien in Alaska. At Present ICI SOG-CID does not accept reward money for locating missing children, Hans informs them to use the reward money for professional counseling of the parents and siblings in order for them to competently handle what the victimized child had gone through.

We are still attempting to find law makers aka politicians to get laws passed to Make It Illegal To Use American Credit Cards, Debit Cards, E-Checks, Bank Drafts and Internet Financial Services In The United States From Being Utilized to pay for such services over the internet!

Major Back Lash

At present various investigative agencies within municipal, county / borough, state, provincial, federal , international and private investigators are hacking and attacking one another which is resulting in major damage to each others computer systems. We can all work together without creating turf wars among ourselves. Finances are very limited without having to battle out one another's ego's!

We have succeeded at eliminating 73% of child / teen porno from the internet, They are now using remote access to each others computers and do not utilize Lolita in the url's any more. We do that and we are only

catching the newbie's, intellectually deprived and the uninformed.

They are now using url's that are starting to be encrypted, ie..

<http://www.preteen-preteen.com/cgi-bin/out.cgi?ses=lQylEFzrgW&id=430&url=http%3a%2f%2fwww.little-nymphets.org%2fcgi-bin%2fin.cgi%3fid%3d56>

We either work together as one or lose. When ICI first started no one believed it was happening. When Hans tried to get the Amber Alert Plan in Alaska he was told to mind his own business. When he tried to get help fighting child / teen pornography, Holly, at the Alaska Commissioners office told him if you do not like pornography then complain to your internet service provider and not us because its your problem and not ours.

Below is a copy of an email sent to the President of the United States to help get the Expanded Wire Tap Bill Passed. Why you ask, Simple, Hans learned very quickly how the Soviet Union and Peoples Republic of China were able to jeopardize National Security; FTTP "Feed Them Their Poison" find a weak link in the chain; #1- sexual perversions, #2- money, #3- illicit narcotics, #4- luxuries, #5- Black Mail regarding spouse or child's activities.

The Final Dual Question To Be Addressed Is From Hans Heinmenberg AKA Ronald Robinson:

Why falsify records regarding myself and why or what did an innocent little girl from England do, in order to have the Government Employees of the State of Alaska in conjunction with the Employees of the Government of the United States of America perpetuate their Wrath to insure that she "Madeline McCann" would not be Rescued, but, instead, be victimized and put to Death?

The two major auctions of the year as of today were protected via corrupted U.S. Government Agencies and corrupted Alaska State / Borough / Municipal Government Agencies. The cover up using falsified criminal records by corrupt Law Enforcement to prevent legal, viable, competent investigations have to be prosecuted in the "World Court" at the Hague. There are Americans that would appreciate Interpol being assisted by United Nation Troops to enter Alaska and the United States to remove the Criminals and Prosecute them to the fullest extent of International Law!

The lowest bid was for a dark haired 5 year old child, "\$50,000.00" : "Is your child next???"
